

NOTICE OF PATIENT PROTECTION DISCLOSURE

The Blue Cross Blue Shield of Kansas City (BCBSKC) Blue Care HMO plan generally requires the designation of a primary care provider. You have the right to designate any primary care provider who participates in Blue Care HMO network and who is available to accept you or your family members. Until you make this designation, BCBSKC may designate one for you. For information on how to select a primary care provider, and for a list of the participating primary care providers, **contact BCBSKC at 816-395-2270 or www.bluekc.com** for more information.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from BCBSKC or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in the BCBSKC network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, contact BCBSKC at 816-395-2270.
